HEADLINE: M'bishi Electric to **Liquidate** 2 **CRT** Units

DATELINE: Tokyo, Feb. 27

BODY:

Mitsubishi Electric Corp. <6503> said Thursday that it will **liquidate** in March 2004 a wholly owned U.S. unit and its Mexican subsidiary that produces 17-inch **cathode-ray tube** displays for personal computers.

The move reflects shrinking demand for small **cathode-ray tube** displays due to the widespread adoption of **liquid** crystal displays.

Mitsubishi Electric will shed a total of around 1,200 workers at the two companies.

The **liquidation** will cause **Mitsubishi** Electric to incur a consolidated extraordinary loss of some 10 billion yen in the current business year to March 31, although the firm already has set aside reserves to cover the loss.

Mitsubishi Electric will continue to produce 19- and 22-inch **cathode-ray tube** displays at a plant in Kyoto Prefecture, as the products still enjoy a solid market share.
